DroneTech

Objectives:
- Piloting the drones
- Delivering the products

Deliverables
- Customizing the processes that handle order entry, delivery confirmation and mobile app.
  - → Eileen Seymour; IT point of contact and will be overseeing the data interface team
  - → Interface for Wilmont's enhanced online order entry process ; for customers to register their willingness to have a drone deliver their orders. Customize DroneTech's systems
- Ensure Wilmont's business information, customer's privacy and the proprietary information about Wilmont's use of drones.
  - → Will work with William Scott, Wilmont's Project lead for the Information Security Management Team, for this.
- Modify drone flight operations
  - → Gerald Hasper; Flight Operations Manager
  - → Testing the adaptations made to drone and packages for safe delivery (Sub project)
- Provide 4 new drones painted in Wilmont's colors and logo.
